I Can...

Animals can change the Earth
To get the things they need

They dig up soil
and chop down trees
And carry away seeds!

They can change things here
They can change things there
Here's a change, there's a change
Everywhere they make a change!

Animals can change the Earth
To get the things they need!

Plants can also change the Earth
They change it as they grow!
They drop their leaves onto the ground
And push their roots down low

They can change things here
They can change things there
Here's a change, there's a change
Everywhere they make a change!

Plants can also change the Earth
They change it as they grow!

I can choose to change the Earth
And keep it safe and clean!
I can pick up trash and turn off lamps
And keep the forests green!

I can change things here
I can change things there
Here's a change, there's a change
All of us can make a change!

I can choose to change the Earth
And keep it safe and clean!

I CAN!
